

TUESDAY, MARCH 17, 2020 EMAIL TO PARENTS AND STUDENTS

TCHS Parents and Students,

It has come to our attention that a few of you are not able to view any/some teacher lesson plans on Renweb and possibly have not for sometime. We believe that the problem lies with the Renweb mobile app which may not be syncing up with a version of Renweb that is still in use.

Each week, teacher lesson plans are turned in and checked by the administration. Therefore, they have been online throughout the entire year. Until we solve the problem with the version syncing, please view all lesson plans by means other than the mobile app. Renweb is doing away with all but its newest version in June, so this problem should not carry over into the next school year. All lesson plans are view-able by accessing the Renweb website and signing into your account on a laptop or desktop computer.

If your only means of accessing lesson plans is through the mobile app and you are unable to view them, please email either Mrs. Stacy Freeman, Mrs. Lauren Jeffrey, or the teacher. We can screenshot the plans or send a report to you so that you will have what you need.

Thank you to everyone for your understanding through these changes and please contact us if you need any help or guidance.
